- ✓ XML submission report

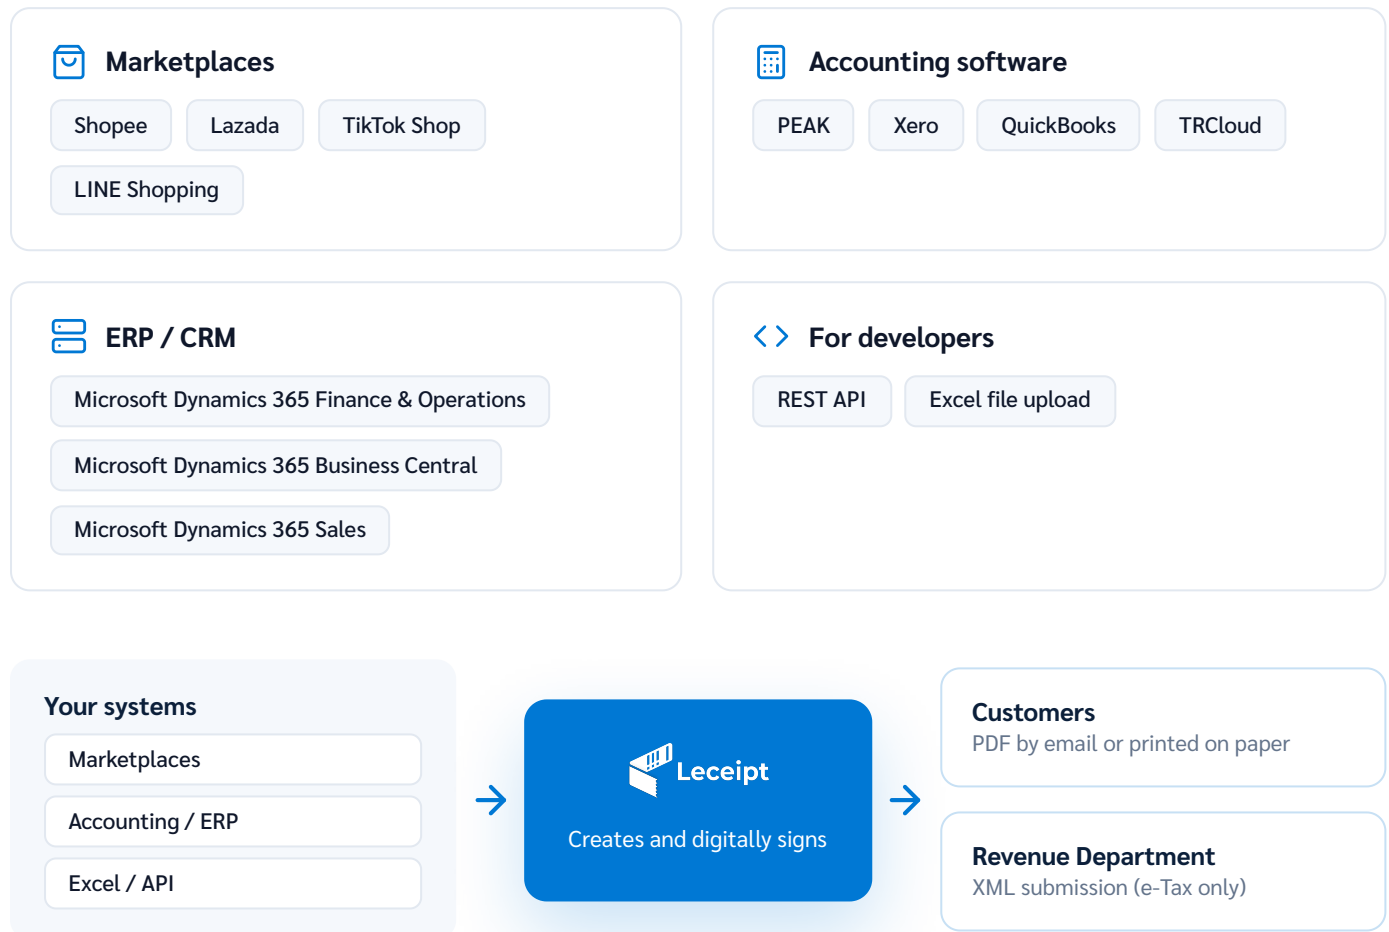

The screenshot shows the Leceipt web application interface. The top navigation bar includes the Leceipt logo, the company name 'Sample Company Co., Ltd.', and the mode 'E-Tax'. The left sidebar contains a 'Documents' menu with a dropdown arrow, and a list of folders: Sales, Account Receivable, Purchasing, Withholding Tax, Organization, External Data ERP, External Data, Products, Submit E-Tax, Reports, and Export RDPRep. The main content area is titled 'Create Receipt/Tax Invoice' and contains a form for creating a receipt or tax invoice. The form is divided into two main sections: 'Sample Company Co., Ltd. (Head Office)' and 'Receipt/Tax Invoice'. The 'Sample Company Co., Ltd. (Head Office)' section includes fields for Customer Name (Siam Trading Co., Ltd.), Country (Thailand), Address Structure (Off), Address Line 1 (88 Siam Tower, 12th Floor, Sukhumvit Road), Address Line 2 (Khlong Toei Nuea, Watthana, Bangkok), Postcode (10110), English (On), Tax Number Type (Tax ID), Number (0105561234567), Head Office/Branch (Head office), Tel (021234567), Email (account@siamtrading.co.th), and Price Include Vat (On). The 'Receipt/Tax Invoice' section includes fields for Number (INV-2026-10-0128), Date (11/10/2026), and Reference. Below the form is a table with columns: Number, Item, Quantity, Unit, Price/Unit, Discount, VAT, and Total (THB). The table contains one row with the following data: Number 1, Item Network installation service, Quantity 2, Unit -, Price/Unit 12500, Discount 0, VAT 7%, and Total (THB) 25,000.00.

Create a receipt or tax invoice in a few steps.

Connects to the systems you use

Stop re-keying data. Issue documents straight from orders and accounting entries.

Standards and security

ISO/IEC 29110 by TÜV SÜD

Our software development process is certified to an international standard

TDID and INET certificates

Electronic certificates are kept on a dedicated secure storage device

Supports e-Tax registration

Ready for the Revenue Department's e-Tax Invoice & e-Receipt system

ETDA standards 3-2560 and 14-2560

Document formats and digital signatures follow ETDA recommendations

SSL encryption

The same standard used by financial institutions, with secure backups

A package for every business

Choose by business size and document volume.
